**National Health Care, Inc and Affiliates**  
**Voluntary Employee Benefit Association Plan**  
**Bronze Plan**  
**Medical and Prescription Drug Benefit Schedule**  
**Effective January 1, 2022**

All benefits described in the Schedule are subject to the exclusions and limitations described more fully herein including, but not limited to, the Plan Administrator's determination that: care and treatment is Medically Necessary; and that services, supplies and care are not Experimental and/or Investigational.

Referrals by PPO Physician to a Non-PPO Physician will be considered as Non-PPO Service. In order to receive PPO benefits, ask your Physician to refer you to listed PPO Physician (e.g. specialists, etc.).

However, if you utilize a PPO Provider for treatment and subsequently require services from a Physician under agreement with that provider is not associated with the PPO (e.g., Physicians, anesthesiologists, radiologists, pathologists, etc.) the charges will be considered at the In-Network benefit outlined on the Schedule of Medical Benefits and treated as a PPO Physician not subject to Out-of-Network provision.

All other limitations, requirements and provisions of this Plan will apply. This exception does not apply in the event of consultations and situations in which you and/or your Physician selected or had the opportunity to select a PPO Physician and exercised the right to receive services from a Non-PPO Physician. The Member must provide the proof that a provider does not exist within the 30-mile radius.

A Preferred Provider Organization (PPO) is a negotiated arrangement in which selected Health Care Provider (physicians and ancillary) contract to provide services for you and your eligible Dependents for a pre-determined price. Examples of PPO Professional Providers are Primary Care Providers, Specialist, Chiropractor and OB/GYN. The PPO Network also includes Ancillary Services. The PPO arrangement is beneficial to you, your provider and the Plan. You receive a more cost effective benefit, the Plan saves money because services are performed at lower costs, and the provider gains new patients. Additional information about the PPO option, as well as a list of in-network doctors and facility can be found on the MultiPlan website: <https://www.multiplan.com/mpipracanc>
